2(Bk) clash of kings bot ed 2(Bk) The Clash of Kings (Bk II) is such a great game, but I do have a couple of questions. Would anybody know if the Boy King is going to be in the game, or not? I don't think it's on the box for the patch, and I can't remember if they've put it on the back of the box for BK2. There's a couple of questions about the boy king, mainly what is going to happen to him. Will the boy king be a playable character like in the first game? Will the game just be about the big

battles in the second one like in the first one? Or will the characters actually have an effect on the boy king? As I mentioned in a previous post, the leader of my country is in a civil war and this can't be changed (unless I change the leader of my country, which will involve betraying another country and something else, I can't remember what). I know that if the king is overthrown, the boy king will become king, but I don't know if I'm going to be able to keep my king in power without the nation going to war. Please help me, it would be appreciated. I'm not sure if the boy king will be playable, but it certainly seems that way. It says in the walkthrough that he's like a 'neutral' character in the Civil War, but it doesn't really seem like he would be though. Well, the leader of my country is in a Civil War and can't be changed (unless I change the leader of my country, which would involve betraying another country and something else, I can't remember what), and the boy king is an ally of my country. The Civil War that is happening is happening because the boy king is moving his army to attack another country. The Civil War isn't going to be decided before the battle against this other country. So is it possible for my king to overthrow the boy king, and what would happen? Well, the leader of my country is in a Civil War and can't be changed (unless I change the leader of my country,
