February 11, 2556 BC. e. In just a few years, CoreLDraw has become the best-selling graphics software in the world. PDF. On the same day that the steam locomotive was invented in 1766, and the telephone in 1876, in 1775 Charles Langley of Massachusetts (who, by the way, was the only person in history who tried to take off in a balloon) proposed using paper for printing drawings. This was the beginning of the era of graphic editors. In 1685 the book "The Art of Architecture" was published, which first described the principles of constructing drawings. fffad4f19a
