If you're new to Defiance and unaware of the game's basic premise, you may be wondering what, exactly, "Second Life" has to do with "Defiance." Like Second Life, Defiance is a virtual world, the premise of the game is the unification of several unique factions which have joined together to create a single, global population. Players are put into the shoes of two private military corporation leaders: Nolan Reynold's OMACs (Offworld Military Alliance Command), and Amanda Waller's HIVE
