"We're thrilled to be partnering with Fox, the creators of the FIFA franchise, to deliver a new innovation that will help create a more authentic football experience," said Richard Blake, SVP Digital Sports Entertainment Media, SEGA. "The combination of Fox and SEGA's strong track record in sports video games is a perfect fit for innovative sports gaming." "We are thrilled to work with the SEGA team on providing even more accurate, authentic gameplay," said Eric Widera, SVP of Sports & Entertainment for Fox Sports. "We can't wait to bring the possibilities of this technology to the forefront of football and sports gaming." "For years, we have worked closely with Fox and SEGA to develop video games that are exactly what the players are used to playing," said Todd Keller, VP of Global Sales, Microsoft. "Now, they will have an even better experience with Kinect technology from Microsoft, allowing them to feel just as they play on the field with the ease of a mouse and keyboard in a game environment." SEGA will have a global roll-out on Xbox One and Windows 10, with additional platforms coming in the future. A Windows PC demo is available for download on the official website. Thanks, VG247

FIFA is the world's most popular sports game and has sold over 112 million units since the launch of FIFA 99™ way back in September of 1994. The game has quickly become the entertainment platform of choice for millions of fans and we look forward to growing that fan base even further with EA SPORTS FIFA 22. FIFA 11's New World FIFA 11 introduced the free-running Control Style, which allowed players to get into the heart of the game and accelerate their playstyle. FIFA 22 offers a similar opportunity: Full Speed, a new Control Style. This leads to further individual and team creativity in attack and defence, higher-intensity play and faster-paced goals. FIFA 12 did away with manual passing altogether, embracing with brand new free-flowing Touch Control passing. The addition of the off-ball man-marking system in FIFA 22 emphasises passing in all directions and positions the ball at the player's feet with pinpoint accuracy. Off-ball challenges add a whole new dimension to free-flowing play. A FIFA World Cup is more than just 10 months of non-stop football. In FIFA 22, the World Cup is bigger, faster and more explosive than ever. The game's biggest, most ambitious World Cup features a new 8-Player Squad system, more passing options, and the expansive 3-3-3 Formation. EA SPORTS™ FIFA 22 World Tour New in FIFA 22 is EA SPORTS™ World Tour, an all-new solo mode that allows the player to take control of a rising star through the development of their skills and their team. They'll work with clubs, youth teams, and scouts as the manager, win the trust of the manager, manage his squad, and seek sponsors from the world's biggest brands. FIFA Ultimate Team FIFA Ultimate Team is the only place in the game to access the massive and diverse range of players and competitions available from all over the world. Every single player has their own unique attributes and abilities, and players' out of game performance is reflected in how they perform on the pitch. FIFA Ultimate Team is updated regularly with new content to match the ever-evolving gameplay styles, technical developments and play styles across the game modes in FIFA 22. The last few seasons have seen big upgrades to the Ultimate Team card game, and the new, more simple approach in FIFA 22 makes the card game more accessible.
