I fail to identify or recognise the most powerful universal question there is. I fail to ask the most powerful 'How Am I?' question or become aware that our system is a total failure at answering that question, at least for the majority of our normal daily life's circumstances. I could fail to understand that we are both the cause and the effect of our own being. Part-Trilogy, Part-Prologue is in volume two of the series. Part-Treasury of Knowledge is in volume three and a sequel to it Part-Treasury of Human Dreams is in the fourth. I seek to elevate The Supremacy of Grace to the ultimate 'how am I' question. I seek to answer that question in an effort to identify and become the cause of my own being, not in pursuit of egoistic wishes and desires, which are the effect of our being a corrupt creation. In everything we do, from our worship of nature to our worship of body, Grace is the name for that constant creative push from a higher to a lower. The lower seeks to elevate itself to a higher state of being. Grace is divine supplication to the creator, to God. Grace is the universal law of evolution, that level of existence needed to keep things from collapsing in on themselves. We continuously evolve upward. We are in a state of continuous evolution. We are continuously being evolved from an unevolved to a developed. Where we exist as individuals we come from and we go to. Where we exist as a group we come from and go to. Where we existed individually or as a group, we are both the cause and effect of the whole, and thus most of our being is the effect of some other being. How have we evolved to become ourselves? How did we change to become ourselves? How are we evolving
