In Rival Stars Horse Racing you are an aspiring jockey and you have been allocated a horse. You must help your horse win races as the first step in getting promoted from Apprentice to Jockey. You'll be jumping over obstacles, racing around race tracks, and competing in races. It is possible to race against other players while earning bonus points for the top three winning places. You can use the two-player mode to race against a friend and complete a realistic racing scenario with realistic racing physics that transmit force to the player when a car hits another car. The most fun racing experiences can be found in the game where you race against other vehicles and complete all required levels and challenges in a race. The game offers both single-player or multiplayer, and all other vehicles in your fleet are racing against you. You'll have your work cut out for you as these cars are fully customizable. Take your horse off the track, build speed, collect powerups, steer, and adjust your engine for the fastest race. Immerse yourself in the world of Rival Stars Horse Racing and play all races single-player to the end to earn more points. Achieve a top three finish in races to earn bonuses. Do well enough to move up the career ladder and begin to compete in more challenging events. Once you're ready to jump into the action, a crew of horse trainers will help you find a racing stable that you can work for. They will advise you how to improve your horse and equip you with the required racing gear, including high-tech tunic, helmet, and racing boots. The greatest equipment is at your disposal, allowing you to customize your own outfit for the race.

In Rival Stars you are a jockey who can ride different types of horses. At the beginning of the game you can play an apprentice to learn about horses, groom and treat horses, and then choose a horse to race. The goal of the game is to win races to compete in more races and then to become a jockey.

The game is easy and casual to play, but the variety of games and fun means it will keep players entertained for hours on end. There is no need to download a computer emulator or sign up with a gaming service to have the best horse racing experience. We recommend BlueStacks 5 to get the best experience. You have to make sure that all the horses are fed, watered, groomed, exercised and acclimatized. Every day, you get up before sunrise, make sure that everyone's feed needs are met and then set off for the stables where you will meet your animals. Make sure your patients are kept well, exercise them as instructed and play with them. To attract visitors, you need to perform well in the races you enter. Each day, you will be given the choice of an up and down race or a jumping event. The first horse to cross the finish line will be assigned a rating. That rating will be displayed in the form of a medal at the end of the race or display of points at the end of the Jumping event. Winning horses are awarded trophies, ribbons and money. The more money you earn, the more trophies you can buy, which are used to decorate your stable. It's time to purchase your new horse when its owner comes to collect it! There are a wide variety of horses available. There are 500 breeds to choose from, with each breed coming with a different temperament, abilities and height.

Make sure to equip your horse with the best gear for the job you intend to do. 5ec8ef588b
